

Java Full Stack Course Plan

Week 1: Java Basics

- 1 Day 1: Introduction to Java, JDK, JRE, JVM, Setup
- 2 Day 2: Data Types, Variables, Operators
- 3 Day 3: Control Statements (if-else, loops)
- 4 Day 4: Arrays and Strings
- 5 Day 5: Classes, Objects, Constructors
- 6 Day 6: OOP Concepts (Inheritance, Polymorphism)
- 7 Day 7: Practice + Mini Programs

Week 2: Advanced Java

- 1 Day 8: Exception Handling
- 2 Day 9: Collections (List, Set)
- 3 Day 10: Map, Sorting, Comparator
- 4 Day 11: Multithreading
- 5 Day 12: Lambda Expressions
- 6 Day 13: Streams API
- 7 Day 14: Practice + Interview Questions

Week 3: Backend Development

- 1 Day 15: Spring Boot Introduction
- 2 Day 16: REST APIs
- 3 Day 17: Layered Architecture
- 4 Day 18: MySQL and JDBC
- 5 Day 19: Spring Data JPA
- 6 Day 20: Hibernate Relationships
- 7 Day 21: Validation & Exception Handling

Week 4: Frontend Development (HTML, CSS, JavaScript)

- 1 Day 22: HTML Basics (tags, forms, structure)
- 2 Day 23: CSS Basics (selectors, box model, layout)
- 3 Day 24: Advanced CSS (flexbox, grid, responsive design)
- 4 Day 25: JavaScript Basics (variables, functions, DOM)
- 5 Day 26: Advanced JavaScript (events, ES6, fetch API)
- 6 Day 27: Connect JavaScript with Backend APIs (CRUD)

Week 5: Project Development

- 1 Day 28: Project Setup
- 2 Day 29: Backend Implementation
- 3 Day 30: Frontend Implementation (HTML/CSS/JS)
- 4 Day 31: Integration & Testing

- 5 Day 32: Enhancements
- 6 Day 33: Debugging & Optimization
- 7 Day 34: Final Review

Week 6: Interview Preparation

- 1 Day 35: Core Java Interview Questions
- 2 Day 36: Spring Boot & REST Questions
- 3 Day 37: Database & SQL Questions
- 4 Day 38: JavaScript & Web Questions
- 5 Day 39: System Design Basics
- 6 Day 40: Mock Interviews + Feedback
